icebreaker

What impact does your jumper have?

By 2050 the plastics in our oceans could outweigh the fish that live there, some scientists predict. Today, microfibres make up 65% of human-made debris on shorelines around the globe. Just one machine wash of synthetic fabrics can release over 700,000 plastic microfibres, polluting our waterways and marine life. Not to mention the water wasted: 152 litres of it per wash.

There has to be a better way.

WHAT IS MERINO?

+35°C

-10°C

The Merino is one of the world's most ancient breed of sheep, and one of the toughest.

**SIMPLE, EFFICIENT, INGENIOUS.
NATURE'S SOLUTIONS AREN'T TESTED
IN LABORATORIES.**

Unlike regular sheep who chew grass in the lowlands, the merino is built to survive the scorching summers and freezing winters of New Zealand's southern alp range.

The Merino can survive these extremes because of the incredible natural engineering of their fleece. Super lightweight and breathable, the merino's summer coat keeps cool in temperatures of up to 35°C. In winter, the merino grows an extra layer of wool over their base coat to protect them against temperatures that plummet to -20°C.

Simple, efficient, ingenious. Nature's solutions aren't tested in laboratories; they face the ultimate field test. If nature gets it wrong, the sheep dies.

TEES, POLOS & SHIRTS

icebreaker

TECH LITE SHORT SLEEVE CREWE TEE

FIT : Regular fit  - Corepun

FABRIC : 150gm jersey/87% Merino/13% Nylon Corepun

If a shirt is so simple, why does the Tech Lite Short Sleeve Crewe have an almost cult-like following?

It starts with the lightweight, breathable 150gm jersey merino, soft and comfortable in every environment so you can wear it year-round. Then it's the details.

Offset shoulder seams and set-in sleeves, and decorative chainstitch side seams all contribute to make it supremely comfortable.

The women's tees have a slightly wider, feminine crewe neckline, proof that making an iconic tee shirt isn't quite so simple.

TECH LITE SHORT SLEEVE POLO

FIT : Regular fit

FABRIC : 150gm jersey/87% Merino/13% Nylon Correspun

Our highly breathable, comfortable, and versatile merino wool polo, the Tech Lite Short Sleeve Polo combines the stretchy performance of our best selling merino tee with a classic polo silhouette.

With capabilities as varied as the adventures you'll take it on, the Tech Lite Short Sleeve Polo features our Correspun™ fabric, which uses nylon fibers wrapped in merino wool to provide added strength and durability while maintaining next-to-skin softness.

ORIGINAL LONG SLEEVE HALF ZIP JERSEY

FIT : Regular fit

FABRIC : 320gm jersey/100% Merino Wool

The Original Long Sleeve Half Zip is one of our earliest designs and has developed an iconic status as one of the most versatile sweaters you can own.

This timeless classic is made from 320gm pure merino jersey, a very soft, breathable, warm fabric that resists pilling, fights odour naturally, and looks great in every environment.

The Original Long Sleeve Half Zip is our biggest selling corporate jersey, it looks super smart worn over a collared shirt or one of our Polos, or with a crew neck underneath.

MEN'S INCLINE & WOMEN'S RUSH COOL-LITE™ WINDBREAKER

FIT : Regular fit

- Cool-LITE™

FABRIC : 100% Nylon Eyelet: 51% Merino Wool, 34% TENCEL®, 15% Nylon

A weather-resistant outer layer that protects against variable conditions, the Incline Windbreaker provides optimal protection, breathability and moisture management when you're out there working hard.

This technical windbreaker features a durable, weather-resistant nylon shell with a DWR finish to shed wind and light moisture. On the inside we added our Cool-Lite™ eyelet mesh that features our cor spun fibers—nylon threads wrapped in merino wool—which aid in moisture transfer and provides the ultimate combination of next-to-skin softness and durability. Strategically placed laser-cut holes improve airflow, while offset shoulder seams eliminate rub when you're carrying over the shoulder! We also added zippered hand pockets to secure your essentials and reflective hits to improve visibility in low light.

UPDATED HELIX MERINOLOFT™ JACKET

FIT : Womens - Slim fit Mens - Regular fit

 - MerinoLOFT™

FABRIC : 100% recycled polyester body, 255gsm terry/39% Merino/45% nylon/16% LYCRA® side panels, 70gsm Icebreaker MerinoLOFT™ Wool insulation, 100% wool heather lining

Designed as an active midlayer for cold, high out-put days, but equally at home in an active office environment, the Helix Vest combines sustainable materials with a technical design.

In the body we used our MerinoLOFT™ insulation, which provides a warm, breathable and natural alternative to synthetic insulations. The 100% recycled polyester face fabric features a DWR that sheds light precipitation.

Merino jersey stretch side panels help regulate body temperature on active days, and the 100% woven merino lining ensures a cosy feel inside. Zippered hand and chest pockets keep small essentials like lip balm, snacks and your phone close at hand.

200 OASIS LONG SLEEVE CREWE

FIT : Slim fit

FABRIC : 200gm jersey/100% Merino Wool

If one were to look up the word versatility in a dictionary, they might just find the Oasis Long Sleeve crewe as the definition. It could also reasonably be the definition of comfort because the set-in sleeves, offset shoulder seams and flatlock stitching make it amazingly comfortable no matter what you are doing.

The 200gm merino jersey fabric is so soft, so breathable, and so perfect at regulating your temperature, that you'll feel great in any weather.

And because merino resists odour for days on end, you really can wear the Oasis Long Sleeve day after day and it will still feel great.

BASE LAYERS

200 OASIS LEGGINGS

FIT : Slim fit

FABRIC : 200gm jersey/100% Merino Wool

The men's Oasis Leggings make cool weather work better, day after day.

Crafted from ultra-soft, breathable 200gm merino jersey, they provide enough warmth under a pant for really cold days in winter, but breathe well enough so that you don't overheat as the day warms up.

Flatlock seams and a brushed waistband eliminate chafing, and because merino resists odour naturally, they are ideal for multi-day use.
